

CLINICAL TRIALS

DIGITAL TRAINING

Interactive, multimedia training for traditional, hybrid, and decentralized clinical trials; post-market product and device use; and patient engagement, customized for patients, caregivers and consumers; site raters and staff; and central raters.

WHY SPRIM PRO

FLEXIBLE HOSTING

Hosting within our Learning Management System or an application of your choice

VERSATILE AND ON-DEMAND

Training delivered on the web, mobile, SCORM, or paper, available 24/7

PROFESSIONALLY PRODUCED VIDEOS

In-house, full-service film production studio and dedicated team, able to film in our studio or on location, with professional models and actors

ACCESSIBILITY

Digital training modules are Section 508 compliant and can be translated into 170+ languages

COMPREHENSION

Knowledge check-in's embedded within training modules, quizzing and remediation, refresher training, and reporting and trend analysis

SPECIALIZED SERVICES

SITE RATERS AND STAFF

- Fully automated and digitized rater pre-qualification
- Naïve versus experienced rater training paths, which means raters are not under or over-trained
- Printable certifications for site raters
- Gold scoring and consensus committees
- Global virtual investigator meetings

CENTRAL RATERS

- Global network of medical professionals who conduct telehealth visits and provide central ratings of images, audio and video
- Clinical staff (nurses, study coordinators) who collect screening/intake information, conduct 1-on-1 trainings, and monitor at-home procedures via telehealth
- Clinical adjudication and consensus committees
- Digital expert ratings portal, data monitoring, and remediation that includes manual and algorithm-based monitoring
